New York, June 28.—The stock market howed symptoms during the early hours f the trading to-day of having fallen ack into the condition of lathargy and nort account showed itself very sensive to developments in the wheat marjet. With the continued fail in the prices

untities of wheat thrown upon the marjet to liquidate, the courage of the bears
zed out at the tips of their fingers, and
jet scrambled to cover their short conacts in the late dealings with considrable precipitancy. The result was a
rong closing at the top level, with the
ally still in force and at a level of prices

any active stocks.
The bears were in full retreat all

It is a manage of the wheat market is unquestionably the dominant in-such there were other points of ength which radiated a favorable in-makes. The Coalers advanced on the in the price of anthracite. The athwestern stocks moved upwards in appany with the more favorable presists of the Texas cotton crop compared in that in other cotton States, on the ge winter wheat crop and on hopes of corn crop. Estimates by a Western de journal that the winter wheat crop is the wheat crop and on hopes of the wheat reserves would make up, deficiency in the shortage in the ting wheat crop had much to do with day's movement both in wheat and troad stocks. It was made evident trylices of stocks have not only kept the with the damage to wheat, but have in discounting continued deterioration, er rains in the Northwest caused a try check to the speculation on this is.
